# UNIVERSITY OF LILLE

## Tell me more about

# HEALTHCARE STUDIES FOR NON-CARERS

POST-SECONDARY COURSES AVAILABLE AT THE UNIVERSITY OF LILLE

## PROFESSIONAL TRAINING IN 2 YEARS

Theory combined with apprenticeships in the field. Selective admission..

### DEUST **SOCIAL INTERVENTION**

This scientific and technical university diploma prepares students for a professional qualification with core teaching on how to manage healthcare and social facilities and the specific features of medical/social challenges: disability, early childhood, elderly persons, etc.

## 3-YEAR BACHELOR'S DEGREES

Theoretical grounding to prepare for further study up to master's level and/or civil service examinations.

### DEGREE **PUBLIC HEALTH AND SOCIAL SCIENCE** SELECTIVE ADMISSION

This course combines the core teaching relating to the social and medical/social sectors (public policy, psychology, sociology, disability and dependence, law, management, etc.) with modern management methods: organisational management, network collaboration, project management, marketing, human resources, financial management, logistics, IT, etc.

In year 3 of the degree programme, students choose one of three options:

- Public-health prevention
- Proximity management of gerontology and medical/social facilities
- Occupational health

### DEGREE **HEALTHCARE SCIENCE** SELECTIVE ADMISSION

This course gives students the chance to divide their studies between life science, public health, management and the human and social sciences.

This bachelor's degree programme is run in direct contact with businesses and representatives of the healthcare sector and industry and includes several apprenticeships and contributions from professionals working in the field. In year 3 of the degree programme, students choose one of three options:

- Healthcare engineering and environment
- New personal assistance technologies
- Biomedical maintenance

### DEGREE **HEALTHCARE SCIENCE** OPTION **MASSEUR/PHYSIOTHERAPIST EXAM PREPARATION**

  SELECTIVE ADMISSION

Under an agreement with the massage & physiotherapy training institutes (IFMK), a certain quota of places is reserved for ILIS students who have completed this exam preparation course and the relevant entrance examination. Students attend the same classes as other 1st years on the Healthcare science programme, but with coursework specifically relating to massage & physiotherapy training. In addition, they complete modules enabling them to move on to the 2nd year of the Healthcare science programme if they fail to secure admission to an IFMK.

For more information, see "Tell me more about preparing for admission to a massage & physiotherapy training institute".

## AFTER 2 YEARS OF HIGHER EDUCATION

Whatever your background, you have the option of completing professional training. This course lasts one year and allows you to specialise, obtain a dual qualification or enter the job market after 3 years in higher education. This professional diploma is designed to lead immediately to employment.

**The information here is valid for the reference year 2018-2019. The academic programmes at ULille are subject to change in September 2020**

More info: consult the catalogue of courses at

<https://www.univ-lille.fr/formations> or contact **SUAIO**

### **PARCOURSUP**

Find out about the requirements and terms of access for each course at: [www.parcoursup.fr](http://www.parcoursup.fr)

## AFTER A BACHELOR'S DEGREE

You can continue your studies to master's level (5 years in higher education) in fields such as healthcare engineering nutrition and food science or public health and social science.
